May 3, 1998

Mr. Søren Birkelund Hansen
Klosterengen 28
DK-4000 Roskilde
Denmark

Dr. Mr. Hansen:

Thank you for your letter of April 24th and know that I am happy that you are pleased with our report and particularly happy that you appreciate its uniqueness as a source of information.

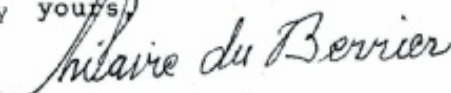

I do not think there is another report written with the cultural and historical knowledge of ours. And I do not believe I am immodest in saying that I am without doubt the only man in the world who, aside from studying at the Paris Institute of Political science, went through the war in Ethiopia, flew a pursuit plane in the Spanish Civil war, was a pilot in China, a member of the French Resistance Force and intelligence service there and was an occasional adviser to His Majesty Bao Dai.

If you or any of your friends decide someday to write a history of the period from 1960 to date, you will be able to do so simply by editing facts from the collected back numbers of H. du B. Report, which I give you permission to use in any way that will help you.

Your May issue will arrive a bit late as I have been sick with a bad case of flu, but it will be up to our standard with the latest information on the Middle East war which intelligence services are openly predicting may start within the next year.

Thanking you again for your interest and your work report known in Denmark, I remain

sincerely yours,

Hilaire du Berrier
